

The total receipts of the Farm from all sources amounted to Rs. 22,788 and the expenditure to Rs. 64,454. The net expenditure on account of the maintenance of the Farm was thus Rs. 41,666 against Rs. 45,227 during the previous year. The expenditure of the Farm has now been limited to Rs. 30,000 per annum.

Major Vanrenen's suggestions referred to in the review for 1930-31 for improving the Farm have been given effect to and the breeding activities have been divided into two sections, *viz.*, a thorough-bred section and a remount and miscellaneous section. The work pertaining to the thorough-bred section is carried out at Kunigal and the work of the remount and miscellaneous section at the Hessarghatta Grass Farm.

Five new paddocks were added to the Farm. This has increased the output of Hariali hay which means an improvement in the bone, quality and quantity of the stock.
